

RACGP Standards For General Practice 3rd Edition
**STANDARD 1.7 CONTENT OF PATIENT HEALTH
RECORDS**

Criterion 1.7.2 Health summaries

Our practice incorporates health summaries into active patient health records.

Indicators

- ⌘ A. At least 90% of our active patient health records contain a record of allergies in the health summary (health records review).

- ⌘ B. At least 50% of our active patient health records contain a health summary. A satisfactory summary includes, where appropriate:
 - adverse medicines events
 - current medicines list
 - current health problems
 - past health history
 - risk factors
 - immunisations
 - relevant family history
 - relevant social history (health records review).

- ⌘ C. Our patient health records show evidence that health summaries are updated to reflect recent important events (health records review).

- ⌘ D. If our practice uses both an electronic and paper based system for recording a patient's health summary, our practice can demonstrate how the patient's health information is made accessible (interview).
